# Highlights

## Cutting-edge design

Philips lamps are designed to be seen. With the choice of spot or traditional lamp shapes, you can use your chandelier, table lamps and more to enhance any room with sustainable ambiance. These lamps are a perfect combination from beautiful light and energy saving in a well designed lamp.

## Energy efficient

All Philips energy saver LED light bulbs save energy from the moment you turn the switch. During their lifetime they use less Kw and thus also result in a lower energy bill. The level of energy saving differs per lamp type and technology.

## Maximum energy saving

When you switch to a Philips LED light bulb, you immediately use up to 80% less energy without sacrificing light output and quality.

## No hazardous substances

Philips LED lights contain absolutely no hazardous materials, making them safe for any room and convenient to recycle.

## Reliable quality

Philips keeps their promises about LED light performance. You can trust what the Philips packaging is saying about light output, lifetime, and wattage equivalent to incandescent lamps.
